When we save time, you save money.

Omaha Door & Window (ODW), family-owned and operated since 1959, is the oldest and largest door and window company in Omaha and the surrounding area. With 85 employees and a fleet of over 60 vehicles, we are ready to provide you the best, fastest, and most cost efficient service for your doors, operators, and dock equipment.

Having over 500 years of accumulated service time and experience in the door and dock industry, our technicians have already seen and solved just about every door problem that can occur. We repair all brands of sectional doors, curtain doors, dock levelers, rapid roll doors, and operators.

Maintenance Programs Designed Just For You

We evaluate all of your units in terms of age, condition, usage, and environment. Then we recommend a maintenance program designed to save you money by reducing costly equipment breakdowns and loss of company time and manpower. We'll help to keep your downtime to a minimum.

Accurate Quotes

After every inspection, an ODW representative will go over all repair recommendations and provide you with accurate, honest information. We know you don't appreciate surprise costs on your billing. That's why ODW gives you a written quote before proceeding with any repairs. You can depend on Omaha Door & Window to completely honor all contract agreements.

Faster Diagnostics. Faster Solutions. Better Savings.

ODW will catalog all the details about your doors, operators, and dock equipment including makes, models, and locations. We provide you with a map with units numbered, so when you call in, ODW will often know what and where the problem is before we send a technician. This means faster repairs for you. When we save time, you save money.

We are the experts in the service, repair, and maintenance of:
